Due from County claims,	\$40 50

ORR WALLACE, Overseer of Poor.

REPORT

OF THE

BOARD OF EDUCATION

FOR THE YEAR ENDING MARCH 1, 1888.

Number of scholars reported by the Selectmen April 1887: boys, 82; girls, 94; total, 176. Under the law passed last June session we are required to report to the Selectmen the financial standing of the school district, for publication in the town report. The addition to our report will make it as lengthy as usual without any general remarks. In order to keep our report within reasonable length we have decided to make but few remarks. The schools in town have made commendable progress with one or two exceptions. There are always some to find fault—the school will be too far for the scholars to attend, or so near that the scholars trouble the neighbors; the teacher will lack order, or be too severe; the teacher will correct is scholar too often, and that one not often enough; there are a few who will not be satisfied with any school at any place. Until all parents take hold with the teacher and committee and labor to bring our schools to a higher degree of perfection, we shall fail to have as rapid advancement as we otherwise might. Parents, teacher, and committee must all work together, realizing that the education of our youth is an essential element in the maintenance of American independence.

E M SMITH, IN ACCOUNT WITH DISTRICT.
